

## **Appendix 6G**

### **Accident Rate of Occurrence Compared to Pipe**

#### **Release Volumes for Modes of Oil Transport, Adjusted for Volume and Distance**

# Rate of Occurrence Compared to Pipe Expressed as Multiple of Pipeline Rate

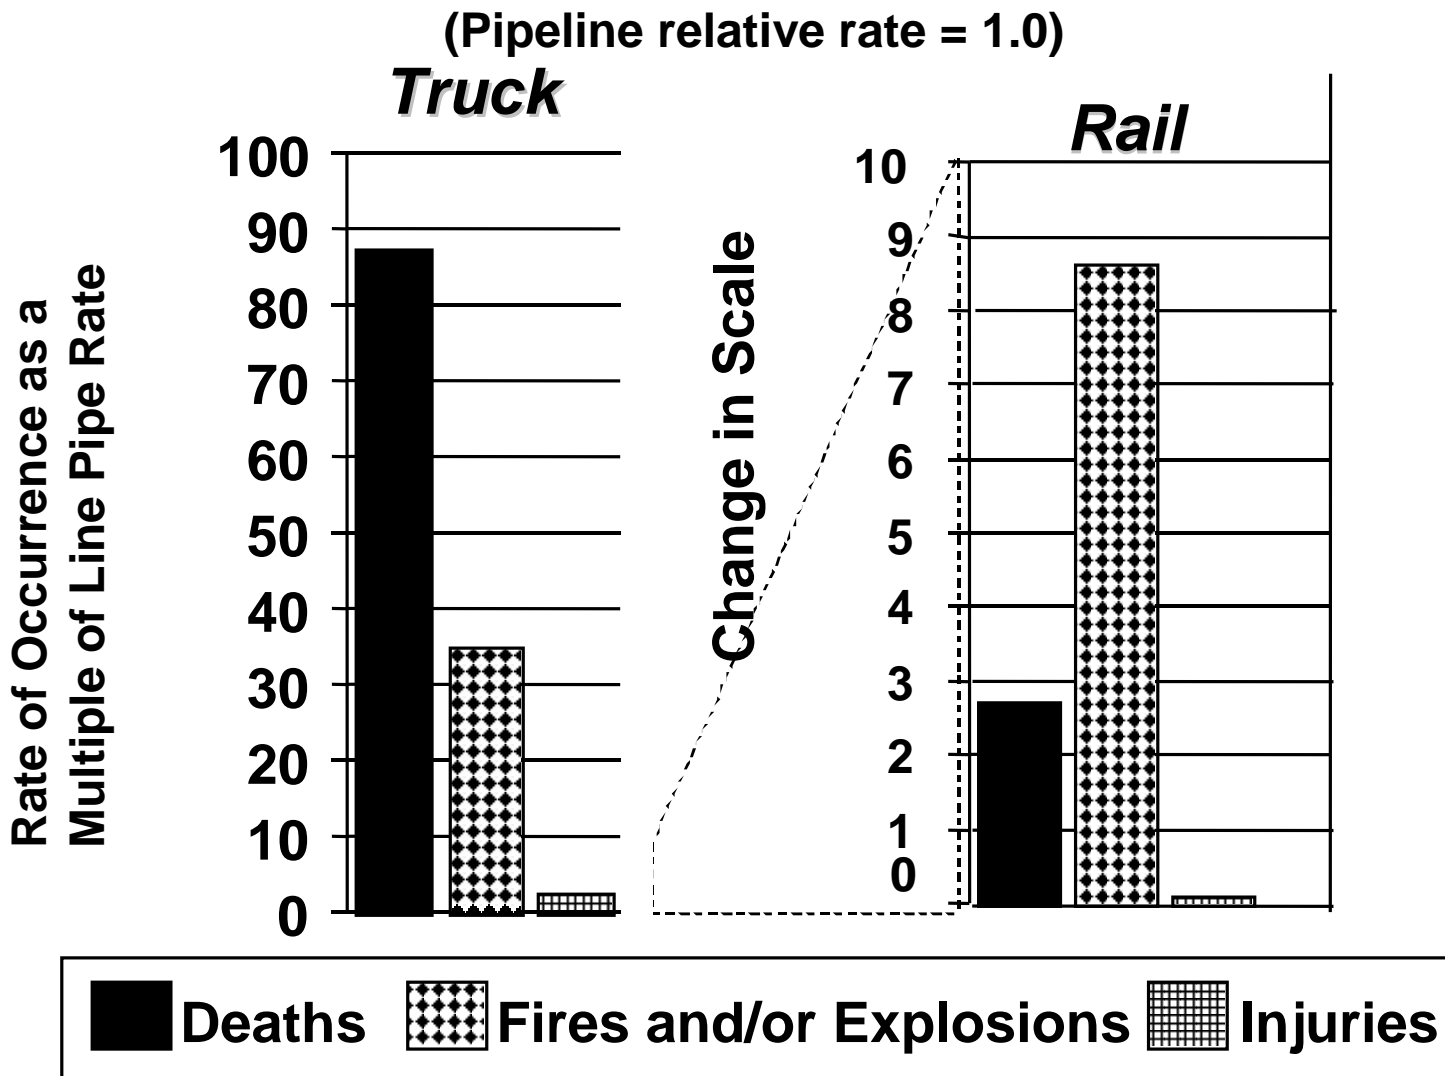

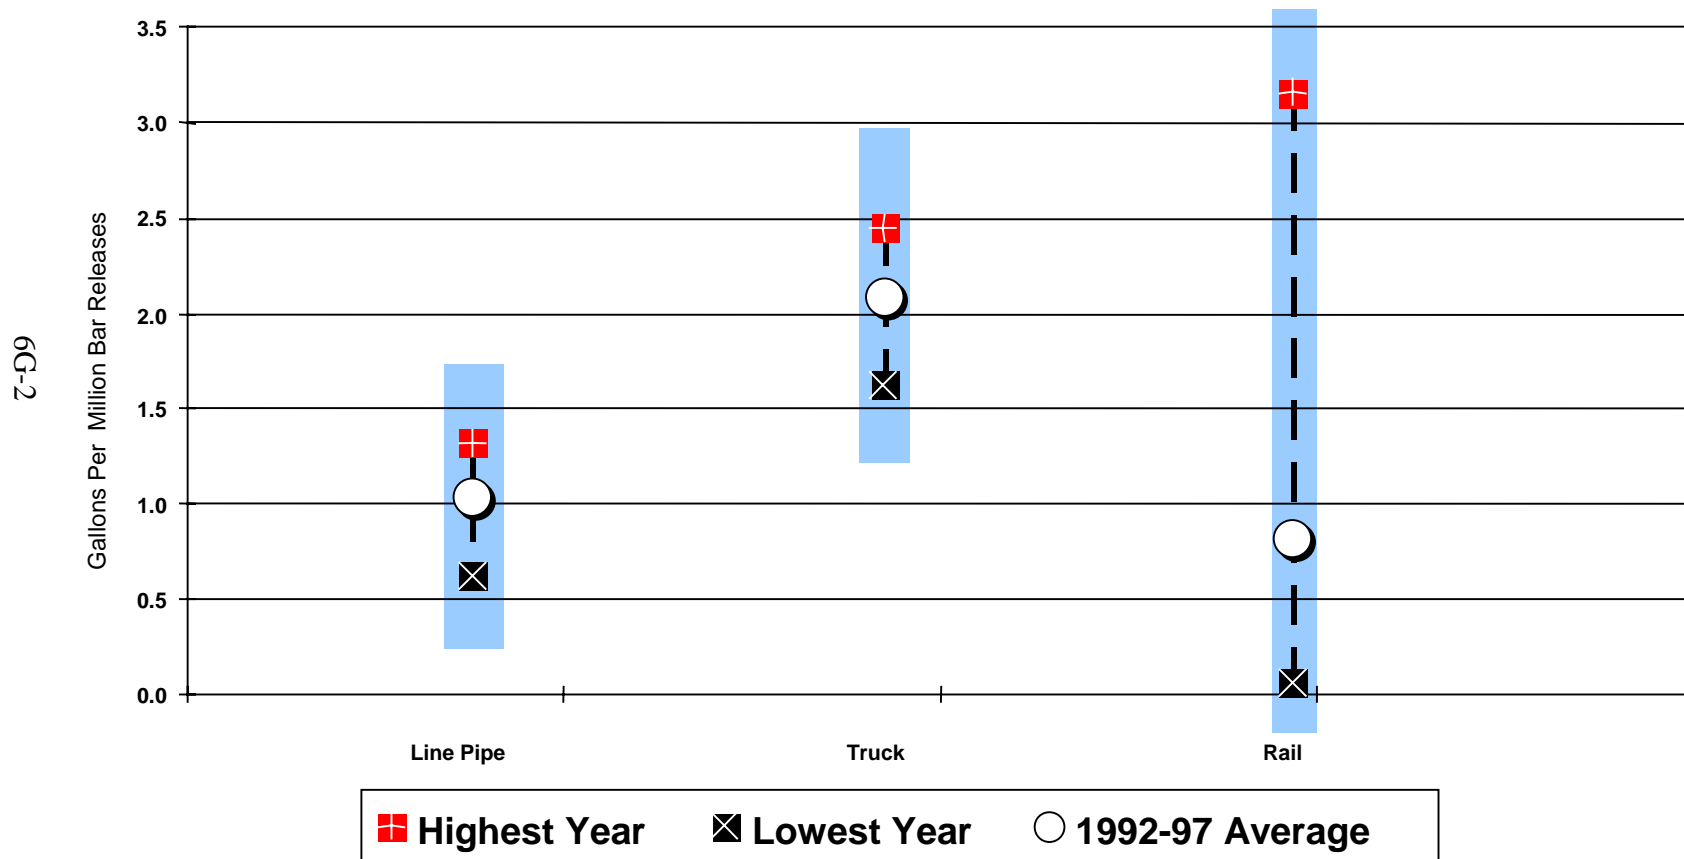

Figure 6G-1

# Release Volumes for Modes of Oil Transport, Adj'd for Volume and Distance

Tank ship value, not shown, is less than 1/10 gallon per million barrel-miles.

\*Incidents w/50 bbls(5 bbl HVL) or more, or fire, explosion, death, injury, or \$50K or more damage
